

BHAVIN TAYLOR

The owners of the property had recently purchased this 2 bedroom apartment from the landlord, however it was in need of a facelift that better suited the personality of the creative couple. So Bhavin Taylor was brought on to assist.

As work had to be done on all areas of the apartment, a lot of the tight budget poured straight into the cost of the contractor, new bathroom and kitchen. However Bhavin did not want to give the clients a basic renovation so used the limited funds to add high impact design features to each space amongst a backdrop of white and walnut floors. In the living room storage was a key requirement for the client, so Bhavin designed custom floor to ceiling storage on one side of the room and on the other a custom low media unit, which is perfect to add piles of books on leaving enough wall space to display a mixture of the client's art.

With both the main walls taken up Bhavin decided that the ceiling was the perfect place to add statement wallpaper and selected this Moroccan style pattern with a soft blue colour palette offering a striking yet balanced impact to the room. Re using the client's sofa and armchair gives the room character and brings the perfect mix of old and new.

In the kitchen Bhavin wanted to keep this quite streamline so selected high gloss white cabinets with a dark counter top, and added a round dining table that can offer flexible seating for when they have guests for dinner.

The clients existing glamorous bed frame needed a statement backdrop for it to sit against so Bhavin selected this quirky animal and stripe wallpaper from House of Hackney, which adds an element of fun to the room. Keeping everything else in the room minimal and white allows the space to be restful and perfect to sleep in.

The second bedroom is used as the client's home office, so Bhavin kept the space simple and functional and let the artist decorate the walls with inspirational images and her own artwork.

In the bathroom, Bhavin wanted to continue the all white look, but still inject a high impact design statement and this time took to the floor, selecting a mismatched hexagon tile in shades of grey that does not over power the space. Choosing a walnut finish on the vanity unit adds an element of warmth to the bathroom and ties this room to the rest of the apartments walnut floors.
